Summary

Software Engineering undergraduate with hands-on experience in full-stack web and cross-platform mobile development, specializing in AI-integrated, real-time, and scalable systems. Skilled in React.js, Next.js, Node.js, React Native, Flutter, and Python, with a strong focus on secure API integration and robust application architecture. Passionate about solving real-world challenges through technology and eager to drive impact as a Software Engineering Intern.

Education

BSc (Hons) in Software Engineering

2023 – Present

Sabaragamuwa University of Sri Lanka

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Web Development, Software Engineering, Design Patterns, Software Architecture, Operating Systems, Computer Networks.

G.C.E. Advanced Level – Physical Science

2019 – 2021

Galewela Central College

Technical Skills

Programming Languages: JavaScript, TypeScript, Python, Java

Frontend Development: HTML, CSS, React.js, Next.js, Tailwind CSS

Backend Development: Node.js, Express.js, FastAPI

Mobile Development: React Native, Flutter

Databases: MongoDB, MySQL

Tools & Technologies: Git, GitHub, Linux, WSO2 Asgardeo, OpenCV, Gemini API, JWT, Socket.io, Postman

Projects

PathAI – AI-Powered Career Roadmap Architect

[GitHub](#) | [Demo](#)

Next.js, TypeScript, FastAPI, Python, Gemini API, MongoDB

- Developed a full-stack career platform utilizing Next.js and FastAPI to extract data from PDF resumes and generate personalized, step-by-step learning roadmaps.
- Improved backend performance by implementing asynchronous document processing and secure API data validation.
- Integrated the Google Gemini API to build a real-time AI Interview Coach and mentoring chatbot that provides personalized career feedback.

Sabra Trails – Cross-Platform Adventure Navigation App

[GitHub](#) | [Demo](#)

React Native, TypeScript, Node.js, Express.js, MongoDB, WSO2 Asgardeo, Gemini API

- Designed a cross-platform mobile app to solve local eco-tourism challenges by mapping hidden trails, integrating Google Maps for live directions, and providing real-time weather alerts.
- Implemented secure user authentication and identity management integrating WSO2 Asgardeo (OIDC/PKCE Flow).
- Integrated a Context-Aware Google Gemini AI assistant to provide personalized hiking recommendations and safety guidance.

Tasto – AI-Powered Food Ordering & Management Platform

[GitHub](#) | [Demo](#)

React.js, Node.js, Express.js, MongoDB, Gemini AI API, JWT

- Developed a full-stack food ordering platform implementing secure JWT authentication, dynamic cart management, and a seamless order placement flow.
- Integrated a Gemini AI chat assistant to analyze the current menu and provide personalized food recommendations to users.
- Built an admin dashboard for menu management, order tracking, and automated PDF receipt generation.

Hybrid Student Attendance System (Ongoing University Community Project – Team Lead)

[GitHub](#)

React Native, Node.js, Express.js, MongoDB, Python (OpenCV)

- Leading a 5-member team to develop a secure attendance system utilizing QR codes, face recognition, and GPS geofencing.
- Engineered the backend MVC architecture for the system's lecturer and settings modules, building RESTful APIs using Node.js and Express.
- Actively building the React Native mobile application, focusing on scalable cross-platform UI components, secure REST API integration, and real-time data visualization.

WayGo – Smart Bus Tracking & E-Ticketing System (Group Project)

[GitHub](#)

Flutter, Node.js, MongoDB, Socket.io

- Contributed to developing a cross-platform mobile application for real-time bus tracking and digital ticket booking.
- Implemented live location tracking using Google Maps API and Socket.io for real-time updates.
- Built core features including seat reservation, e-ticket generation, and trip management system.

Open Source Contributions

WSO2 Identity Server (wso2/docs-is) | Contributor

[View PR](#)

Contributed to the WSO2 Identity Server documentation by resolving phrasing issues in the quick setup guide, which was successfully reviewed and merged into the project repository.

Awards & Certificates

- Diploma in Computer Science – Visiontec International
- Python for Beginners – University of Moratuwa
- Web Design for Beginners – University of Moratuwa
- Diploma in Graphic Design – Visiontec International
- Diploma in Office with Graphic – Visiontec International
